Business size	Small Business
NAICS	518210 (primary), 541511, 541512, 541519, 541715, 423990, 424350, 423610

CORE COMPETENCIES

- **AI operations software:** internal tools that automate operational workflows end to end.
- **Internal enterprise systems:** design and delivery of the systems a company runs on, across operations, inventory and order flow.
- **Process automation:** manual, repetitive processes replaced with measured, reliable automation.

DIFFERENTIATORS

- Founder led: every engagement is designed and led by the founder, a solution designer whose background spans IT, energy, networks and embedded systems.
- Across his career, the founder has shipped 50+ AI and software projects.
- Industrial field grounding: hands-on work in warehouse and energy field operations, with about 100 users trained on delivered systems.

PAST PERFORMANCE

- **DeltaPlus USA** (PPE manufacturer, $400M+ revenue): consulting engagement, May 2025 to January 2026. Owned the operations software roadmap, led adoption, trained about 100 users, audited and improved processes. The founder's earlier work with the same company cut shipping lead time from 30 days to under 7 days.
- **CFM Robotics** (Sherbrooke, Canada; FANUC integrator): current signed consulting contract. Rebuilding internal systems with AI, plus strategic and AI advisory work.
- **Founder's prior work in France** (through other companies): internal enterprise systems for EGA (electrical works) and VERELEC, today used by all employees for all company processes.
